

## Elk Point High Holds Exercises

Margaret Hobden, Lily Kondrat Give Valedictory Addresses

ELK POINT, July 5.—The 1948 graduation exercises for Elk Point High School were held recently in Elk Point Hall. R. E. Beattie, principal of the high school addressed the graduates, stating that at no time before in the history of Canada were graduates faced with greater opportunities than at the present day.

### BORDER CADETS GO TO GIMLI

LLOYDMINSTER, July 5.—About fifty of the young ladies of Lloydminster, members of the Lloydminster flight of Air Cadets left Sunday morning for their annual summer camp at Gimli, Manitoba, where they will take considerable training. The local flight attended camp at Gimli last summer and the news a couple of weeks ago that they were returning there for the camp this year was received with much delight. The flight will be in charge of J. McGele, who took them to camp last year.

### Missionary Group Hold Meeting

DIDSBURY, July 5.—Members of the WMS of United Church, comprising the Red Deer Presbytery, gathered together in a rally at the Old United Church, Friday, June 28.

Mrs. W. E. East of Wetaskiwin presided. Mrs. Pybus of Carstairs conducted the devotional. A school for leaders was held with short talks by several executives of the department.

### Champion Calf Brings Good Price

ROCKY MOUNTAIN HOUSE, July 5.—At the Calf Club sale held at Rockville, the Louisville Calf Club members made an excellent showing. The Grand Champion Hereford, owned by Jor Richardson, turned the scales at 780 pounds, was 13 months old and was sold to the T. Eaton Company for \$75 cents a pound. Besides the money prizes, the young prize winner received a small bottle donated by Clyde Stauffer, and a wrist watch donated by George Stiering. William Leslie won second honor with his Aberdeen Angus and Melvin Sarsaria third prize with a Hereford.

"The big thing in this business, Beamish, is to watch the lights in the sky, not those in the hotel district!"

## Parade Highlights Trochu Celebration

TROCHU, July 5.—Ideal weather prevailed for the annual Trochu Elk's Dominion Day celebration and a record crowd of over 1,000 attended. The parade starting at 1 p.m. led by the Trochu Army Cadets and the Drumhead RCMP band, was one of the best ever seen here, with many competing for the prizes.

Parade winners were as follows: Best decorated commercial float, Roach Bros. Red and White store. Best decorated float, Royal Purple.

Best decorated bicycle, Carol Ann Herman. Best decorated car, Jim Drew. Best horse and rider, Dicky Schuch.

Best original entry, H. B. Lloyd's, three prize winning German Shepherd dogs, hitched in tandem to a cart. Best practical bird house, Ross Traub.

Most attractive bird house, L. Erwin Hauke. 2. Don Macleod. Sports winners at the graduation were: Margaret Hobden, Ignit Stetko, Eugene Dembicki, Leslie Young and Arthur Vaughan.

Grade IX students who graduated were: Evangeline Scraba, Lily O'Leary, Jean Sams, Doreen O'Leary, Pauline Boyko, Mary O'Leary, Doris Wiegner, Jean O'Leary, Sophie Wiegner, David Didow, Billy Spealy and Philip Spealy.

Eugene Dembicki, as president of the Student's Union was master of ceremonies.

## KILLAM STAMPEDE ATTENDANCE 4,000

KILLAM, July 5.—After a poor start, the weather man turned in an almost perfect afternoon and evening for the crowd of around 4,000 people to enjoy the Killam Stampede and baseball tournament on Wednesday, June 23.

With something doing on the grounds at all times there was never a dull moment. If one tired of the Stampede events, there were some very good baseball games to watch, or some thrilling horse races for experts and others to try their skill at picking the winners.

A good display of farm machinery drew the interest to the farmers from far and near. Of course almost everyone had their fill of hotdogs and hamburgers, coffee, soft drinks etc., supplied by the four booths located on the grounds. Even the Boy Scouts tent with their freshly popped pop-corn did a rush business, but unfortunately sold out before the day was over.

Alliance band was in attendance and added to the festivities. The picture show and dance held in the Empire theatre were well attended and brought the day to a close in the wee small hours.

### Friends Honor Westlock Couple On Anniversary

WESTLOCK, July 5.—Mr. and Mrs. Frank Sumner were guests of honor at a surprise party on June 25 when forty friends gathered at the home of Mr. and Mrs. Charles Sumner to celebrate the Sumners' fortieth wedding anniversary. During the evening a presentation from the group was made. Mr. Sumner recently retired after 36 years as grain buyer.

### Three Hills Church Losses Clergyman

THREE HILLS, July 3.—A large gathering of the Knox United Church members and friends was held in the church basement after the evening service for Rev. and Mrs. Marston who are leaving the week for Lacombe where Rev. Marston will be in charge of the United Church.

Rev. and Mrs. Marston have endeared themselves to all who knew them in the two years stay here and will be missed greatly. Herb Clark spoke for the Sabbath Congregation and S. J. Robertson for Three Hills church and presented them with an engraved silver dish and purse. Frank Morrell acted as chairman.

Queen Victoria had 37 great-grandchildren alive at the time of her death.

### ITCH CHECKED

Mr. and Mrs. C. H. McLeod, of the McLeod family, who have been suffering from itchy skin for many years, have been cured by the use of the McLeod family medicine.

### \$800 Is Collected At Pouce Coupe

POUCE COUPE, July 3.—To date over five hundred dollars has been collected in the Pouce Coupe district in aid of the B.C. Flood victims. Trochu, B.C. was appointed through the local Chamber of Commerce. It is expected that one thousand dollars will be the final figure. Contributors were Mrs. S. Kent, Mrs. C. Callahan, Mrs. Halliday, Mrs. S. Welch, Mrs. L. Hicks, T. Gray, T. Jamieson and M. Miller. Civil servants from the provincial government offices also donated a day's pay.

### Former Mayor Dies

CHARLOTTETOWN, July 5.—(CP)—Samuel Kennedy, 66, former Mayor of Charlottetown, died in hospital here Saturday after a lengthy illness. He was mayor of this city from 1934 to 1936.

## Berwyn Hospital Has Annual 'Day'

BERWYN, July 5.—On Saturday, June 26, Berwyn municipal hospital held its annual hospital day with a tea held on the lawn, sponsored by the Women's Institute. The district is very proud of its hospital under Miss Heather Miller, RN as matron, a graduate of the Medicine Hall general hospital. Her staff consists of two nurses, Miss Catherine Gibb, RN and Miss Esther De Boer, and one trained nurse's aid, Miss Pauline. A silver collection was taken, the proceeds going to the hospital.

### SC Candidate

MANYBERRIES, Alta., July 3.—(CP)—James Underhill of Manyberries was nominated as Social Credit candidate for the Cypress constituency at a nominating convention Saturday. He won over Wilson of Lucky strike, Alta., 10,000 votes to 8,000. He is a member, Mrs. Edith B. Thurston of Bow Island, Alta., was eliminated on second ballot.

## Hospital Problem Is Discussed

POUCE COUPE, July 5.—A meeting of all interested in the Pouce Coupe hospital was held in the Nervin Hall. The meeting was called by the board to decide whether or not the hospital could remain open due to heavy debt and lack of patients. Chairman was T. Jamieson with Mr. McLean, inspector of hospitals and Mr. Ship regional supervisor of social services as speakers. Mr. McLean explained the operation of a medical centre, which he thought could be handled better than a hospital at Pouce Coupe. It was finally decided to put a collector in the field to attempt and collect some of the outstanding accounts, amounting to some \$10,000 and to try and keep the hospital operating, for the present at least.

**Coming—**  
**more and better recreation centres!**  
A PLACE for wholesome, health-building play in fresh air and sunshine is the birthright of every young Canadian.  
Many progressive communities already have safe, well-equipped recreation centres. But more are needed. And in some towns and cities they will be provided through life insurance company investments in municipal bonds.  
This is an example of how part of each dollar you invest in life insurance may be reinvested on your behalf. Life insurance dollars are put to work every year to help develop the nation's roads, schools, harbours, and other public works and industries.  
Thus your life insurance brings a double return. It provides financial protection for your family. And it helps make Canada a better land to live in!

A message from the life insurance companies in Canada and their agents.

It is good citizenship to own **LIFE INSURANCE**

# Claxton Fights Back at Red Star

## Defence Minister Suggests Look Into Own Back Yard First

By Harold Morrison

OTTAWA, July 5.—(CP)—Defence Minister Claxton last night suggested the Soviet Union look into its own back yard first before it accused other countries of fomenting a new war.

The defence minister who had told the Commons that Russia currently was Canada's only possible aggressor tonight back against an attack by the Moscow army newspaper.

"The hope of future peace lies not in what the Soviet Union says, but in what the Soviet Union does," the defence minister said in an interview with The Canadian Press.

**RED STAR CHARGE**  
Red Star had asserted Saturday "government circles in Canada not only are not combating the war hysteria kindled in the public but themselves are actively stepping forth in the unenviable role of propagandists for a new war."

It describes as "a provocateur's pipe dream" the declaration by Canada's defence chief that "the only possible aggressor is the Soviet Union."

Everyone knows that Canada is not a country which has about 4,000,000 men under arms, the defence minister told The Canadian Press.

Further, "Canada has not used the veto 26 times to obstruct international cooperation and has not taken under her domination nearly a dozen countries."

Mr. Claxton referred to the amount of money Russia was spending for armaments. He mentioned no figures, but said: "A comparison of the military budgets and standards of living of Canada and the Soviet Union shows very plainly where we each stand."

"The fact is," said Mr. Claxton, "Canada is devoting proportionately much more to the improvement of the standard of living... which is already incomparably higher than theirs."

The minister had evoked an armada of a possible 100,000 four engine Soviet bombers attacking this country.

**"WAR INSTIGATORS"**  
Red Star added that the "pipe dream" was not the "passion of the fanatic" of the Canadian cabinet. The Soviet official newspaper claimed that it proved the Canadian government itself belongs to the category of "war instigators."

The hope of future peace, said to improve the welfare of its own people and its work with other nations in the welfare of the world.

Windows will sparkle if some vinegar is added to the fresh water.

## Dubois Dismissed As Olympic Rower

OTTAWA, July 5.—(CP)—Roy Dubois, president of the Canadian Association of Amateur Rowers, Sunday shattered their hopes of representing Canada in the Olympics.

He said the case of the Winnipeg oarsman had been brought up at a meeting of the CCAA in Brockville Saturday. However, there was "no hope" that the Olympic committee's decision would be reversed.

Dubois was turned down at St. Catharines, Ont., last week by the committee after he won the Olympic trials singles event. Reports were Dubois was not fast enough. He completed the 1,500-metre distance in 7:21.8.

At Winnipeg Dubois claimed that after completing the trials he had heard he had rowed them in three different times—7:00, 7:21 and 7:29.

## Home Provided For Children Of Veteran

SARANAC LAKE, N.Y., July 5.—(AP)— Felix Gates 52-year-old First World War veteran who offered six of his 10 children for adoption because he couldn't find a place to live, said home for the family had been provided.

Gates advised that the family would move into its home on Tuesday. He added that the adoption offer was "old." He didn't say who offered the new home.

## Convicts Recaptured

MONTREAL, July 5.—(CP)—Two escaped convicts from the nearby St. Vincent de Paul penitentiary were recaptured Saturday night, following a search by the Quebec Provincial Police and Royal Canadian Mounted Police.

## Two Drownings

BELLEVUE, Alta., July 5.—(CP)—The Thursday drownings which claimed the lives of Gino Socca and Thomas Richard Card, both 13 and of Bellevue, were accidental, a coroner's jury ruled Friday night.

## In Soccer Final

VANCOUVER, July 5.—(CP)—Vancouver City Greenhorns entered the Dominion soccer finals (B.C. section) last Saturday, trouncing North Shore Reds 2-1.

## Shutdown Order Cancelled By Ford

WINDSOR, Ont., July 5.—(CP)—Ford Motor Company of Canada, Limited, today cancelled instructions which would have closed down all passenger car operations in its Windsor plant at midnight next Tuesday.

William H. Clark, director of industrial relations, said that settlement of the 17-day-old strike in the plant of Canadian Automotive Trim, Limited, which had cut off supplies of body trim parts to Ford, had resulted in cancellation of the shutdown order.

## Major World Plane Crashes Since 1935

NEW YORK, July 4.—(CP)—Major civilian plane disasters since 1935, in which 40 or more persons were killed:

MAY 18, 1935—49 killed in crash of Russian plane in Moscow.

JULY 24, 1938—33 killed, 130 injured when plane crashed into crowd in Bogota, Colombia.

DEC. 28, 1946—63 killed in three trimmer crashes at or near Shang Hai.

JAN. 5, 1947—43 killed in Chinese airliner crash at T'ing Tzu.

FEB. 15, 1947—33 killed in crash of airliner near Bogota, Colombia.

MAY 20, 1947—53 killed in crash near Port Deposit, Md.

JUNE 15, 1947—50 killed in crash in Blue Ridge Mountains of Virginia.

OCT. 17, 1947—41 killed in crash of French plane over the Mediterranean coast.

OCT. 24, 1947—50 killed in crash of airliner in southern Utah.

OCT. 27, 1947—43 died in Swedish airliner crash in Greece.

MAY 17, 1948—43 killed in air crash of DC-4 at Mt. Carmel, Pa.

Other recent major British plane disasters:

MARCH, 1948—20 killed in Sabena airliner crash, at London airport.

OCTOBER, 1948—23 killed in R.A.F. Liberator carrying Czech refugees, in Hampshire.

NOVEMBER, 1948—27 killed in R.A.F. Liberator carrying arm personnel, at Black Down, Devonshire.

AUGUST 18, 1941—22 killed in take-off crash of trans-Atlantic airliner.

AUGUST 18, 1941—22 killed in take-off crash of trans-Atlantic airliner.

Infants are not able to focus their eyes accurately until about three months after birth.

## Showdown Near On Marshal Tito Policies

By Alex H. Singleton

LONDON, July 5.—(AP)—Yugoslav Communists appeared today to have set the stage for an eastern European showdown on the policies of Premier Marshal Tito, now in disfavor with Moscow.

Taking official Yugoslav news agency, said all Communist parties have been invited to attend the fifth congress of Yugoslavia's Communist party in Belgrade July 21.

The agency's announcement came only a few hours after a Bulgarian newspaper blatantly called upon Yugoslavia to say whether they plan to remain in the Communist camp or seek partnership with the west.

**PUZZLING QUESTION**  
It was a question which also puzzled the rest of Europe. While Tito's government seemed to dispute with some of the other powers in the Russian sphere, Yugoslav newspapers kept thumping the drums in praise of Russia.

Yet it was the Soviet-dominated Cominform (Communist International Information Bureau), which turned the heat on Tito by accusing him and his lieutenants of straying away from the Marxist and embarking on an nationalist, anti-Russian policy. The Yugoslav Communist party's central committee has denied the accusations.

The Yugoslav Communist organ Norba offered a clue as to why way Yugoslavians lean, it said.

**NO POLICY CHANGE**  
"As far as our stand toward the

## More Planes Thrown Into 'Berlin Battle'

BERLIN, July 5.—(AP)—British and United States efforts to beat the Russian blockade of Berlin with a bridge of supply-carrying planes gained fresh momentum today.

The air forces of the two western allies sent nearly 400 planes into the city yesterday from Western Germany and were planning to keep up the pace.

Brig-Gen. Joseph Smith, commanding the American air force, said although the crews are averaging only four or five hours sleep each day they are maintaining and flying the planes with maximum efficiency.

British planes to use Sunderland flying boats to increase the tonnage being flown to Allied national air bases. 200,000 Germans in the western sectors of Berlin.

Meanwhile, there were hints that the Russians planned a new protest over alleged violations of flying rules in the corridor being used by the Americans and British planes.

Soviet officials have made approximately 30 similar protests in the last three months.

The 400 planes sent to Berlin yesterday compared with 274 flights made during the previous 24-hour period.

Despite the giant air lift Berlin still faced economic paralysis by the Soviet ground blockade, now in its 17th day.

Store Hours: 9:30 a.m. to 5:30 p.m.—Dial 914

## No Cabinet Shake-Up Until Leader Chosen

By D'Arcy O'Donnell

OTTAWA, July 5.—(CP)—No changes in the federal cabinet likely will be made until after the Liberal party chooses a successor to Prime Minister Mackenzie King in August, an authoritative source said yesterday.

He said Mr. King had decided to leave the justice department portfolio until the new leader is chosen and takes over as prime minister. It is not known just when that will be.

Mr. King made it clear in his valedictory speech to the Commons Wednesday that when he resigns as leader of the party he will retain the prime ministership for "some weeks." He said, however, that he has served his last session of parliament as leader and as justice minister.

Should external affairs minister St. Laurent be chosen leader he will be faced with the task of choosing his successor in the cabinet. About two years ago, parliament passed an act separating the external affairs portfolio from the prime minister's office.

In fact, if agriculture minister Gardiner or any other of the present cabinet ministers are chosen as leader, they undoubtedly will relinquish their present portfolio.

## Indian Officials Arrive To Inspect Canadian Railways

OTTAWA, July 5.—(CP)—Three representatives of India's nine state-owned railways arrived here today to start a one-month inspection tour of Canadian railways.

The members of the Indian railway mission, accompanied by officials of the Canadian National Railways and Canadian Pacific Railway, will study Canadian rail conditions and methods from coast to coast.

Ranjit Singh, divisional superintendent of the Eastern Punjab Railway, leader of the group, said at a press conference that the visit is part of a program to make India's railways "self-sufficient" as soon as possible.

## Week-End Deaths

DETROIT — James Dalton, 62, editor of the trade magazine Motor since 1928.

NEWARK, N.J.—Morris Welner, whose family said he was in his 100th year.

TORONTO—Rev. Edwin Smith, retired United Church minister and literary critic.

THREE RIVERS, Que.—Dr. Ernest Rousseau, 45, well-known doctor in the Three Rivers district.

CHARLOTTE TOWN — Samuel Kennedy, 66, former mayor of Charlotte.

NEW GLASGOW, N.S.—Dr. A. Fraser MacGregor, 56, one of Nova Scotia's eminent surgeons.

MONTREAL — Charles James Black, 81, former aide of agencies of the Canadian Pacific Railway.

LONDON—Frederick Alexander Sarsby, one of Britain's leading financiers and industrialists.

MONTREAL—Dr. Alvan Foote Fox, 78, for many years chief anaesthetist at Montreal Children's hospital.

## Why Profits are Necessary

Profit is the means to advancement  
... a step on a stair to help you rise to greater heights.  
... the source of profits must be encouraged, just as you encourage your savings.

Profits are necessary to pay for more up-to-date equipment... to help business expand... to provide more goods and better service to more people. And, a portion of the profit should in all fairness be set aside for the shareholders—those who have thrown in their lot with that business... for better or for worse.

The Bank of Toronto has noted, in the years before and since Con-

federation, the close identification of profits with the public good. Business health and continuous employment depend on an effective co-ordination of both labour and management in realizing legitimate profits which assure progress and promote national well-being.

The use of Bank Credit can often contribute to profits. This is a service which The Bank of Toronto offers to Canadian business.

## SHOPPING GUIDE

## Fresh Fruit Picture Framed in Rosy Glow

By Bea Thrifty

Ahhh! Gooseberry tarts . . . had some for Sunday dinner and were they ever a treat!

Bought a basket of the little green berries for 22c and it was 22c well-spent.

Drastic changes in the fruit 'n' vegetables picture are awaiting us this week.

We can buy cherries today for around 38c a pound and tomorrow (perhaps late today) we can buy raspberries, loganberries and currants.

Cherries are the sweet Bing variety from British Columbia of course and the raspberries are the first of this year's bumper crop.

Because of the abundant supplies—raspberries will be less expensive this year with tentative quotations for the first lot at 25c per pint basket.

This news is especially pleasing in the face of the old predictions of "no fruit crop" when the Fraser river was rampaging.

—This may be music to the ears—but you ain't hear nothing yet.

Field tomatoes have finally made their initial appearance on the local markets.

They are launching taking place Monday and Tuesday in pretty well all city stores.

Celery tops has brought down the price ladder and will be selling at 35c to 40c per pound—which is far cry from the 45c per pound when the long-time-absent celery reappeared a short time ago.

Incidentally the field tomatoes will go fast and forward to the customers for around a quarter of a dollar.

## DOROTHY DIX SAYS—

## Love and Congeniality Basis for Marriage

A correspondent asks: "What are the requisites for a happy marriage?"

Well, theoretically, all that is necessary to make a happy marriage is love, but, practically, it takes the wisdom of Solomon, the patience of Job, the self-control of a stoic, the endurance of a martyr, the charm of a John Barrymore, the sense of humor of a wit and a few other top-drawer attractions.

Unfortunately few mortals possess all of these virtues, hence the great number of marriages that end in divorce, or else are just end-of-the-line affairs.

Of course, love is the most important factor in marriage, for no marriage can be happy in which the husband and wife are not drawn to each other by the force of love.

Many husbands and wives of course would like for each other, but they are not drawn together in peace. And some of the most devoted husbands and wives in the world never show their mates the slightest sign of the affection they really feel for them.

No marriage can be a happy marriage unless it is founded on love, but it has to have other ingredients, chief of which is congeniality.

They must have the same tastes and interests. They must have the same aims and ambitions. They must like even the same cooking.

Irvin Cobb once said that the Civil War was not fought over the slavery issue; it was precipitated by the question of hot bread versus cold bread.

TASTES DIFFER

In its way this conflict of tastes still rages for husbands and wives still go to the mat when one's "loves" is plain living and high

Before marriage every enamoured young couple acquires a list of goods that is mainly made up of flattery.

Perhaps at the time they believe they are marrying paragons, but they soon discover that they are married to just ordinary human beings, and then each sets to work to make the other over according to his or her own pattern.

Then the trouble begins, yet it could be so easily avoided if they would try to reform each other only "as it is" instead of trying to make their mates over into something they never were and never can be.

And another thing it takes to make a happy marriage is for husbands and wives to accept each other "as it is" instead of trying to make their mates over into something they never were and never can be.

The happy marriages are those of husbands and wives who not only love each other, but laugh at each other's little funny ways. Which is a tip to give to all brides for free.

Another thing it takes to make a happy marriage is for husbands and wives to accept each other "as it is" instead of trying to make their mates over into something they never were and never can be.

And why shouldn't lovely Rita Hayworth be the popular personality that she is—she has complete confidence that her grooming is flawless.

## WHY GROW OLD

## Good Grooming Is Important to Success

By Josephine Lowman

Women are very conscious of the picture they present to others. They hold this picture in their minds when out remodeling it and the vision has a drastic effect on personality. Whether a woman is awkward or moves with ease, whether she is poised or self-conscious, whether she feels like a success or a failure, all depend partially on how she thinks she looks. Her mental outlook and her posture are often affected.

For this reason, good grooming and figure control play far-reaching parts in a woman's success in life.

It always happens! Just let her be a little careless, gain weight or dash her hair, and she is certain to run into someone who is important to her!

Helene Z. Erchner, style coordinator, has some interesting ideas about this. Miss Erchner said, "Every day of our lives is a rendezvous with destiny though we may not have marked the day as an engagement calendar."

The very morning we do not bother to change the stocking with a run or wear our grille, may be the day we are introduced to "The Man" or the day we have an emergency conference that may mean our future career.

The very time we run down to the corner in a muffled house-dress for those pink moments may be the occasion for meeting our daughter-in-law or our son-in-law's boss's wife! All of us, at one time or another, have unexpectedly met someone we would impress when our lipstick was crooked, our dress unbecoming, or our hair out of place.

While we shouldn't be so unsure of ourselves that this makes a difference, very often it does! It can distract us just enough to throw us off balance and make us mull the meeting.

We might all make it a rule to bolster our ego with outer attractiveness.

It is the husbands and wives who have the same tastes and interests, who have the same aims and ambitions, who like even the same cooking.

Irvin Cobb once said that the Civil War was not fought over the slavery issue; it was precipitated by the question of hot bread versus cold bread.

TASTES DIFFER

In its way this conflict of tastes still rages for husbands and wives still go to the mat when one's "loves" is plain living and high

Before marriage every enamoured young couple acquires a list of goods that is mainly made up of flattery.

Perhaps at the time they believe they are marrying paragons, but they soon discover that they are married to just ordinary human beings, and then each sets to work to make the other over according to his or her own pattern.

Then the trouble begins, yet it could be so easily avoided if they would try to reform each other only "as it is" instead of trying to make their mates over into something they never were and never can be.

And another thing it takes to make a happy marriage is for husbands and wives to accept each other "as it is" instead of trying to make their mates over into something they never were and never can be.

The happy marriages are those of husbands and wives who not only love each other, but laugh at each other's little funny ways. Which is a tip to give to all brides for free.

YOUR BABY AND MINE  
Rocking Baby to Sleep  
Just Pure Sentiment

By Myrtle Meyer Eldred

There were a number of years when no one asked me how to break the baby of being rocked to sleep, rocking chairs disappeared from the home, doctors frowned on the practice, and babies went to sleep without this age-old ceremony.

Today it is being revived as a means of improving the relationship of mother and baby. It's a sweet way to show your love when the baby is tiny but it can get to be a tiresome chore. I can't see how relationships can be bettered when the mother feels resentment at having to give up so much of her time to rock the baby to sleep.

If the habit is started the child acquires it as a preliminary to sleep and he demands to be rocked until the Sandman overtakes him. Sometimes, as the children grow older they fall asleep less readily than when they are babies and the mother rocks and rocks for well on to an hour, before she can attempt to put the child in his bed.

You can see, with half an eye, that I consider this pure sentiment with very little value to it, except to give the new mother a feeling of doing something personal for her baby. There are so many other ways to give a baby a sense of being loved and happy, that will not develop such an inflexible habit.

—The only way I know to break the habit—and there are plenty of mothers asking that question, now—is to taper it off. Take a dose and note the time it takes to rock the child into sleepiness. Then the next night subtract one minute from this time. The next night subtract two minutes and continue this procedure until the child becomes accustomed, increasingly, to going into his bed without being light asleep.

Our friend No. 28 "Sleeping Habits," may be had by sending a stamped, self-addressed envelope with your request to Myrtle Meyer Eldred in care of this newspaper.

Better have a smaller pot. Keep your pot scrupulously clean.

Percolator: Measure cold water into percolator. Percolator should always be filled to its working capacity—3-3 1/2 full-for best results. Set regular grid in pot. Measure regular grid coffee into basket. Cover.

"When coffee begins to percolate reduce heat. Percolate for 4 to 6 minutes to obtain full flavor. Coffee should never be boiled; no keep water just under the boiling point.

Drip coffee maker: Make a single cup of good coffee quickly and simply. Place paper filter in measured drip grid coffee. Place top section over coffee basket and pour in freshly boiled, bubbling water.

Cover; let it stand about one minute per cup. Water: Compact

Gracious baskets of pink and white roses decorated All Saints' Cathedral Wednesday for the wedding of Gladys Leona Goff and Charles Andrew Climie.

The bride is the daughter of Mr. and Mrs. R. P. Goff. The bridegroom is the son of Mr. and Mrs. S. Climie.

The Very Rev. Dean A. M. Trevellick performed the ceremony.

Given in marriage by her father, the bride wore a white satin gown with white lace peplum draped to floor-length. The gown was fastened with a fitted bodice and high neckline. Her hairdresses was a halo of roses and gladioli.

She carried a bouquet of red roses and gladioli.

Miss Wilma Goff, sister of the bride, was the bride's attendant and chose a frock of powder blue with gathered waistline and sweetheart neckline. A pair of pink headbands held a chapel veil in place and she carried a bouquet of pink carnations.

Russel Climie, brother of the bridegroom, was best man.

Vernon Harford played the wedding music.

Following the ceremony a reception was held when the members of the bride and bridegroom assisted in receiving.

For the occasion Mrs. Goff chose a pale mauve crepe dress with floral accents and a corsage of white roses and pink carnations.

Mrs. Climie wore a floral jersey of red roses.

## Horoscope

By FRANCES DRAKE

Look in the section in which your birthday comes and find what your outlook is, according to the stars.

FOR TUESDAY, JULY 6, 1948.

March 31 to April 10—(Aries)—With their fervent desires, Aries should strive to gather all possible benefits. Business, with a personal approach, can gain; romance and helpful social contacts.

April 11 to April 20—(Taurus)—The way of easy-going, steady, and "business" without effort or reasonable expenditure. You can make headway and should succeed in gaining some profitable points.

May 21 to June 20—(Gemini)—Rapidly moving, restless, and easily bored. You employed in chemicals, research, new developments, travel, and other interests bear watching, getting handling.

June 21 to July 20—(Cancer)—Adequate from a few spots during early hours, you day can be highly profitable; you can be successful in business and personal affairs. Your natural approach most effective.

July 21 to Aug. 10—(Leo)—By a vigorous, "I know" attitude, you can gain success in business and personal affairs. New, unusual happenings may change your course.

Aug. 11 to September 10—(Virgo)—Rapidly moving, restless, and easily bored. You employed in chemicals, research, new developments, travel, and other interests bear watching, getting handling.

September 11 to October 10—(Libra)—By a vigorous, "I know" attitude, you can gain success in business and personal affairs. New, unusual happenings may change your course.

October 11 to November 10—(Scorpio)—Rapidly moving, restless, and easily bored. You employed in chemicals, research, new developments, travel, and other interests bear watching, getting handling.

November 11 to December 10—(Sagittarius)—Rapidly moving, restless, and easily bored. You employed in chemicals, research, new developments, travel, and other interests bear watching, getting handling.

December 11 to January 10—(Capricorn)—Rapidly moving, restless, and easily bored. You employed in chemicals, research, new developments, travel, and other interests bear watching, getting handling.

January 11 to February 10—(Aquarius)—Rapidly moving, restless, and easily bored. You employed in chemicals, research, new developments, travel, and other interests bear watching, getting handling.

February 11 to March 10—(Pisces)—Rapidly moving, restless, and easily bored. You employed in chemicals, research, new developments, travel, and other interests bear watching, getting handling.

BRIDGE

Opening Lead Sets Declarer 2 Tricks

By William E. McKenney

Many of my readers have written me to ask what has happened to Sylvia. Sylvia has not been playing much lately. She has been pretty well occupied taking care of Thomas L., who is now nine months old. The other afternoon she sat on her first bridge game in quite a while, and Thomas L. was kibitzing. They tell me that even he was startled by Sylvia's bidding and play.

First of all, only Sylvia would pass the one spade bid, and only Sylvia would pass the two heart

♠	54	♣	83
♥	AQ7	♦	103
♠	KQ9	♦	103
♣	Q10	♦	103
♠	A96	♦	103

She decided to lead the ace of spades, and it was a confused declarer that before he was through he had been careful, he might have held it down one.

You can see, however, how easy it is to make the contract with the queen of diamonds opening. The queen is in dummy with the ace of diamonds, lead the eight of hearts to the ace, ruff a heart in dummy with the four of spades, return to the South hand with the king of diamonds and ruff another heart with the five of spades.

Now lead a small diamond from dummy and ruff it, lead another heart and ruff with the nine of spades. Then you can lead the ten of diamonds and discard the ten of clubs. West will ruff with the seven of spades. If West leads the ace of clubs, you ruff it and lead the ten of spades, throwing West in the lead. All this West can make is the ace, queen and seven of spades.

Yes, Sylvia is noted for doing the wrong thing, but somehow it always works out well.

Educational Think Spain Would Side With West Powers

VANCOUVER, July 5.—(CP)—A Spanish scholar, knighted by the king of Spain, said Saturday night he believes Spain would remain with the western democracies in the event of a war between Russia and the west.

Dr. Antonio M. Fontana, head of the department of Spanish at Stanford university, arrived here to conduct summer school classes at University of British Columbia.

"The general feeling in Spain is one of sympathy for the democracies," Dr. Fontana said, "though Spain must at first remain neutral in the event of a continental war, the country would swing to the side of the democracies."

# Nomination Of Eisenhower Likely

Democratic Candidate For President Unless He Says 'No'

By C. R. Blackburn

WASHINGTON, July 5.—(CP)—The political spotlight to nomination next week of Gen. Dwight D. Eisenhower as Democratic candidate for president unless he says "no" quickly and emphatically.

The Eisenhower movement—aimed at nominating the former Allied Commander, now president of Columbia university, instead of President Truman west into high gear during the week-end. It was encouraged by Eisenhower's continued silence.

Seated observers here say the General will not accept nomination and will announce that decision within a day or two. Some Republicans wanted him earlier in the year but he turned their overtures down.

The experts here say he has no desire to comply with any appeal to his patriotism from either Republicans or Democrats, who are based mostly on a desire of politicians to use his name and prestige to save them from defeat in next November's election.

But unless he delivers the necessary complete renunciation that will remove him from any possible Democratic draft, it seems certain he will be nominated by the party, and, quite likely elected if he runs.

It is also likely that, even if he removes himself, there will be an Eisenhower nomination at Philadelphia next week and an attempt to pressure him into accepting.

## VETERANS "TAKING OVER"

Those promoting the Eisenhower boom took heart yesterday from a speech by the General in which he said war veterans are "taking over" by day the leadership of our country, and added "our nation could not be in better hands."

The address was transcribed earlier for radio broadcast and Eisenhower was spending the holiday week-end out of reach of reporters. But his remarks might indicate a change of heart from last January when he turned down the Republicans with a statement that a military man should not seek office.

Senator John Sparkman (Dem.-Ala.), an enthusiastic friend of Eisenhower, said leaders of the "Death Eisenhower" movement should get a statement from him before the movement snowballs to a nomination.

"I'm convinced that unless Gen. Eisenhower makes a statement, his name will be put in nomination, he will be nominated and elected," Sparkman added. Eisenhower had been seeing "everybody who has come to see him and he has not said no yet."

## Calgary Sold Right Out For Stampede

CALGARY, July 5.—(CP)—Calgary went western today to the tune of cowboy yells, Indian whoops and the swishing of twirling lariat. A two-mile parade through crowded, flag bedecked streets, marked the opening of the annual Calgary Exhibition and Stampede, one of Canada's most spectacular events.

Scores of mounted Indians in full ceremonial dress and war paint shared the parade spotlight with hundreds of cowboys and cowgirls in picturesque western garb.

## SMITH TO PRESIDE

A. L. Smith, Progressive Conservative member for Calgary West in the House of Commons, will officially open the Stampede at the Exhibition grounds tonight.

The Calgary summer race meet is being held in conjunction with the Stampede with more than 400 horses on hand to take part in seven races scheduled daily. Highlights of the meeting will be the running of the \$10,000 added Calgary Juvenile stakes for western bred two-year-olds next Friday.

Throughout the six days of the Stampede, the top cowboys of Canada and the United States will vie for more than \$10,000 in prize money and the Canadian and North American cowboy championships.

## HOTELS FULL

One of the highlights of the Stampede will be the chuckwagon race. Twenty-five chuckwagons outfit, a record entry, will race for the \$7,500 prize money offered this year. Last year 25 outfits competed. Accommodation is at a premium in the city with all hotels and tourist camps booked solid. Stampede officials have organized a special accommodation bureau to place visitors in private homes. Every hotel in the city has been "sold out" for Stampede Week for more than two months.

## Canadian Veterans Parade In England

HASTINGS, Essex, England, July 5.—(CP)—More than 100 members of the Canadian veterans' association in the United Kingdom paraded last night at Heron's Corner in the local cemetery to hold a service for members of the Canadian forces who died in the First World War.

Herb L. A. Brant, formerly of Winnipeg, Minn., and chairman of Canadian forces in the Second World War, officiated. The service was taken by Brigadier H. D. Graham, chief Canadian liaison officer for Britain, who was representing Norman Robertson, Canadian high commissioner.

## 'EMBERS ONLY' FOLLOWS FIRE

SALT LAKE CITY, July 5.—(AP)—The door leading to the Veterans of Foreign Wars Club destroyed by fire yesterday, originally here the least, "embers only."

## 4,000 Expected At Liberal Rally

By GEORGE KITCHEN

OTTAWA, July 5.—(CP)—This capital fever invasion of a potential 2114 candidates eligible to attend the national Liberal convention which will fashion a new platform and elect a new party leader, has been joined.

In all Liberal federation officials expect some 4,000 members at the convention, being held Aug. 5 and 6, and those with official voting power will total 2114, including 1,200 fully accredited delegates and 913 alternates.

For the first time in party history, several hundred women will be among the delegates. Women attended the 1919 convention at which retiring Prime Minister Mackenzie King was elected to the leadership, but no delegates.

service with the Department of Veterans Affairs. He was a veteran of the First World War and lost a leg while in action. Since its inauguration, he has been general president of the war camps of Canada.

OPEN-MOUTHED with amazement, Jeffrey B. Fleming, 6, listens to his own voice coming from a newly-developed wrist watch radio. Dr. Cleo Brunetti of the U. S. Bureau of Standards holds the transmitter. Young Jeffrey got to hear his voice during an engineering progress demonstration at Franklin Institute, Philadelphia.

## 20 New Airlines

LONDON, July 5.—(AP)—Tass, the Russian news agency, reported yesterday that "more than 20 new air-jets, Tass said."

## FLYER NABBED BY AERIAL TRAFFIC COP

DETROIT, July 5.—(CP)—State Trooper Henry A. Deloit Sunday watched a flier take off from nearby Pontiac Airport "like a cowboy" and maneuvered another and faster airplane and followed for 18 miles to make an arrest for reckless flying.

Like a flier cop behind a signboard, Trooper Deloit had in the suit while Marine Pvt. Richard J. Koster, 30, since his first "buzz drive" on Upper Bellevue Lake, near Milford, Mich.

When Koster made a second dive, Deloit pulled alongside and with the gesture known to every automobile traffic violator, instructed Koster back to the airport and to the ground.

## Cowboy Injured At High River

HIGH RIVER, Alta., July 5.—(CP)—Lawson Fore, top ranking United States cowboy from Los Angeles, Calif., is in serious condition in hospital here following an injury received while competing in the Stampede here last Friday.

Fore suffered a punctured lung and four broken ribs when his mount fell on him. The veteran of 11 years in the rodeo rings, had successfully ridden a buckskin horse for the required 10 seconds and jumped off when the horse turned suddenly, reared and crashed down on him.

## \$2,000,000 Fire Razes Cowichan Lumber Mill

LAKE COWICHAN, B.C., July 5.—(CP)—A \$2,000,000 fire Saturday night destroyed the main mill, the "Swede" mill and powerhouse of Western Forest Industries Ltd., and 500,000 board feet of lumber at nearby Honeycomb Bay.

The mill, about 45 miles north-west of Victoria, was one of the five largest on Vancouver Island.

Only the watchman and power-house were saved by the fire. No casualties were reported. PUMPING SYSTEM OUT

The fire broke out in the boiler room of the main mill and spread to the powerhouse through the steam conveyor, putting the pumping system out of commission.

The main machine shop, the shingle and planing mills and 500,000 feet of lumber were saved by a sprinkler system after locomotives, speeders, tractors and other heavy equipment had been moved to safety.

All mill hands and residents of the Honeycomb Bay model village, as well as crews and equipment from neighboring communities, still fought the flames at midnight. The fire was reported out Sunday.

CLOSED OVER HOLIDAY

The mill had a daily capacity of 200,000 board feet of lumber. It had been closed during the Dominion Day holiday and was scheduled to reopen today.

Approximately 500 men will be unemployed. The shingle mill will also have to cease operations because of lack of supplies.

## GUNMEN SUFFER HEART CHANGE

LANSING, Mich., July 5.—(AP)—Two gunmen were ready to make their getaway in an appropriated automobile yesterday but changed their minds when they learned their victim lost a foot in the war.

The two men were surprised in the summer cottage of Richard Doyle, 35. They took Doyle's car keys at gunpoint, then noticed that he limped.

"Did you get that injury in the war?" one of them asked. "Yes," Doyle said. "I lost my left foot in Germany."

"Then you need the car more than we do," the man replied. The pair ran off into nearby woods.

## Sask. To Co-Operate In Health Scheme

REGINA, June 5.—(CP)—Saskatchewan has promised co-operation in the federal health grant scheme, Premier T. C. Douglas said Saturday in a prepared statement. However, willingness to participate in the \$20,000,000 program was conditional and provision of conditional grants would be sought, he said.

## THE PRESIDENT OF SEIBERLING

(CANADA) answers your questions about the new Seiberling Safety Tire—a Premium Quality Tire at Standard Price—and explains why it is—

# THE ONLY TIRE OF ITS KIND IN THE WORLD

Q. Why is it the only tire of its kind?

A. Because this new Seiberling Safety Tire is Heat Vented. No other tire, at any price, offers you this feature. This is a Seiberling patent.

Q. What is the advantage of Heat Venting?

A. SAFETY. Heat Venting reduces dangerous internal tire heat which is a major cause of tire failure. A cool-running tire is a safer tire. Seiberling Heat Vents keep the tread cooler while in motion.

Q. How is this done?

A. Seiberling Heat Vents are scientifically engineered into the tread. As soon as you start your car, they begin to work automatically. The weight of the car and rotation of the tire cause them to open and shut alternately. They expel dangerous internal tire heat. Draw in cooler air. Actually air-condition the tread so you can drive with perfect ease of mind at speeds that used to worry you.

THE ONLY HEAT-VENTED TIRE IN THE WORLD

HEAT VENTS—patented, proved test outlets—carry off internal tire heat, draw in cooler air... air-condition the tread of this new, safer Seiberling Tire.

Q. Can I see how Heat Venting works?

A. Yes, indeed! Drop into your nearest Seiberling Dealer's. Examine this new Seiberling Tire, yourself. It will only take you two minutes to see why this is the coolest-running, SAFEST tire made today... outstanding value.

Q. Do I pay more for this Heat-Vented Tire?

A. Positively NO! While it is safer, easier riding, and offers you top mileage—truly Premium Quality—the price is Standard! So, why not ride on the BEST? If you are in need of tires, be sure to see the new Seiberling Safety Tire at your nearest Seiberling Dealer's.

# Signs Point To U.S. Soft Coal Strike

WASHINGTON, July 5.—(AP)—All signs pointed today to a soft coal strike in mines owned by United States steel companies.

Annual vacation of nearly 400,000 soft coal miners ends at midnight tonight, but the 40,000 employed in the so-called "captive" steel company mines are not expected to go back to work without a contract.

**INDUSTRY BALKS**  
The steel industry balked at giving John L. Lewis and his United Mine Workers the union shop arrangement signed by the commercial coal industry. The mine-owning steel mills said they were willing to go along with other contract provisions—a dollar-a-day pay increase and doubling of the miners' 1947 10-cent-a-ton welfare fund royalty.

Government lawyers indicated they will wait for a strike to develop before making any court move to ship it.  
Under a union shop, all employees must join the union within a specified time.  
The commercial coal industry agreed to union shop provisions despite a Taft-Hartley provision that workers must give their prior consent in a National Labor Relations Board election.

## ELECTION BARRED

Lewis is barred from calling for such an election. This is because he has refused to sign a non-Communist affidavit required by the law before a union can use NLRB machinery.  
Another step the government might take is seizure of the "captive" mines. This could be done under the new draft law because of the effect of a further steel shortage on defense production, although President Truman said last week he planned no such move.

If he took that step, the miners would become government employees and could be forbidden to strike by the courts.

## Union Ratifies New Agreement

NEW YORK, July 5.—(AP)—A dollar-a-day wage boost and doubling of employers' contributions to the United Mine Workers health and welfare fund are provided in a new agreement with hard coal operators employing 400,000 men.

The agreement was ratified by the union's 400,000 members yesterday after it had been initiated by union and employer negotiators Saturday night. The new royalty for the UMW welfare fund is 23 cents a ton and union spokesmen said it now could plan a pension system for the members.  
Union spokesmen said present wage scales for the men average \$11.10 for a seven-hour day for those classified as company miners and \$10.53 for company laborers. Miners operating on a piece-work basis get an average of \$13 a day.  
The agreement continued a 30-day vacation provided in the old contract and provided payment of \$100 in vacation wages.

## St. John Order Honors Members

OTTAWA, July 5.—(CP)—Twenty-six members of St. John Ambulance today were honored by admittance or promotion in the Order of St. John of Jerusalem in an investiture by the Governor-General.

The ceremony took place at Government House following meetings of the Ambulance Committee, the Priory Council and the Priory Chapter. New boards of officers also were announced.

Those honored include:  
Officers: (Honorary)—Col. Thomas E. Holland, Winnipeg; Frederick C. Middleton, Regina.  
C. A. Gray of Ottawa was re-elected sub-Priory for a term expiring June, 1951.

Members of the Priory Council whose term expires June, 1951, include:  
Senator J. H. King, Vancouver and Ottawa; H. E. Sellers, Winnipeg; H. Darling, Edmonton; Dr. F. C. Middleton, Regina.

Members of the Ambulance Committee appointed for one year: Senator J. H. King, Vancouver, and Ottawa; Frank MacPherson, Vancouver; K. G. Nairn, Vancouver; Mrs. W. C. Woodward, Vancouver; J. P. Macer, Winnipeg.

Vancouver's Alexander is continuing president of the Linen Guild of the Priory. Members include: Mrs. E. W. Hamber, Vancouver; Mrs. W. C. Woodward, Vancouver.

## Man Drowned, Two Rescued When Tiny Vessel Capsizes

VANCOUVER, July 5.—(CP)—A 12-foot pleasure craft struck a piling and capsized in the Gulf of Georgia last night, drowning its owner, 20-year-old John Melnicki of Vancouver.

The Daley, a river tug, and a 10-ton American. The mill was built in 1910, after pressure cruiser sped to 100.

## Mill Destroyed

RANDWICH, Mass., July 5.—(AP)—First last night destroyed a great mill required to be the added 10th victim among the 10th man company.

## New Quarantine On Navy Vessel

VICTORIA, July 5.—(CP)—A new 14-day quarantine was placed on the Tribal destroyer Albatross last night following discovery late yesterday of a seventh polio case among the 10th man company.

was quarantined for 14 days on July 20, when it docked here with the body of Electrical Artificer Edward Zimmerman of Victoria, who died of polio on the Oregon coast.  
The navy last night was removing to quarantine hospitals on shore, some sections of the ship's ratings. Health authorities felt that "quarantining the crew" would help curb the spread of the disease.  
The old Roman alphabet had no u, or w.

## 4,200 Jews Now Entering Palestine

HAIFA, Palestine, July 5.—(AP)—The S.S. Yav Yav landed 220 Jews today from Cyprus. Another 1,000 are expected later today aboard the S.S. Yav Yav. The Jews had been interned in Cyprus by Britain because they had tried to enter Palestine without immigration visas. About 20,000 Jews still are in camps on Cyprus.

## Typhoon Forces Planes To Detour

MANILA, July 5.—(AP)—Weathermen today located a strong Pacific typhoon moving 750 south-east coast of Formosa, and said it forced planes between Manila and Cebu to detour as much as 400 miles Sunday. Wind velocities were estimated at more than 100 miles an hour at the storm's center, and more than 50 miles an hour over a 300-mile radius.

The only safe way to handle fireworks is to leave them alone, the National Safety Council says. "Take your children to a supervised public display instead of risking an accident."

# Look A NEW CAR

## ...hits the LOW PRICE FIELD!

**ON DISPLAY TUESDAY**

Beautiful, isn't it? Long, sweeping lines. A solid, substantial look. Only 6 1/2 inches from road to roof line. The new Meteor comes flashing into the low price field—the very picture of surging power, and of elegant grace, too.

Loss of room everywhere. Exceptionally low floor, wide doors—this car is easy to get into. Rear seat 60 inches wide. Rich upholstery. Distinctive trim and fittings.

The Meteor offers wonderful ease of control. With new type steering linkage, this car holds a straight course, gives fingertip steering. Extremely sensitive braking. A pleasure to drive.

Beautiful instrument panel, illuminated with "black light", has instrument cluster directly in front of driver for instant reading. New 100-hp., V-type, 8-cylinder engine gives smooth power, packs high performance with economical operation.

Riding in Meteor is smooth, restful, vibrationless. Seats are slung like a hammock between front and rear wheels. Independent front wheel suspension with aer-type shock absorbers. Fresh air at the touch of your finger with Meteor's dual-draft, built-in ventilation system.

For wide-open visibility, Meteor has an almost unbroken sweep of safety glass—front, sides and rear.

That great, roomy trunk has 19 cu. ft. of usable luggage space. Spare tire can be reached without disturbing the luggage.

## Redwater Next Imperial Test

By Cecil Jackson

Rig from the abandoned Eynon No. 1

is being moved to a new start at Redwater 30

miles northeast of Edmonton, according to

unofficial reports. Imperial Oil officials have

not announced the abandonment of the test south of the

Redwater field, but it is known that intensive tests in the new

Cretaceous failed to show oil in commercial quantities and

the rig will be dismantled over the week end.

The hole at Redwater will be in

the rig 15,357-ft. with about 30 miles

northeast of Edmonton and 20

miles east of the abandoned

hole at Fedorah. It will extend

Imperial's search in the area

north of Edmonton which has dis-

covered the legal gas field but has

failed to find the oil field which

Imperial officials hope to uncover

in the area.

First tests in the Morinville and

Legal districts produced huge gas

flows and oil filled cores. These

indications, along with highly

porous and fractured limestone

and dolomite led to the belief

that oil would be found somewhere

in the locality.

SHOWING AT VOLMER

The fact that no water has been

detected in the crude from the

wild well has not worried. In

other fields when a wild well has

flowed for such a long period it

has been found to contain water

mixed with the crude oil. Although

the well has been producing for

most 50,000 barrels of crude oil

from formations with at least

three feet of water, the water

has not been detected in the

surface produced by the escap-

ing gas. The water has come to the

surface so far as is known.

The widest 20 holes east of Ed-

monton in the Ardrowan district

have been drilled to a depth of

10,000 feet. The water level in

this hole will test an entirely new

district. The hole will hold inter-

ests of the water level to the con-

A considerable amount of freehold in the locality.

ATLANTIC SUBSIDING

Reports from Leduc indicate that

the uncontrollable production at

Atlantic No. 3 is gradually sub-

siding. At week end it was re-

ported to have dropped well below

10,000 barrels daily. Peak pro-

duction reached two weeks ago

when it was 15,000 barrels per day. While

the reduction did not coincide with

cessation of water injection through

Imperial Leduc No. 4, it follows

closely enough to suggest that the

oil well has been forced out of

the field rather than prevented its

escape.

## Only Six of Wreck Victims in Hospital

WINNIPEG, July 5.—(CP)—Of 16 passengers and crew members injured early Saturday in the collision of two Canadian National Railways trains 100 miles west of here and about 35 miles east of Rivers, Man., six were sent to hospital.

Three, all passengers, are expected to be discharged. The others, all railroad employees, were more seriously injured, and will be confined to hospital for several days.

The remaining victims of the accident were treated at the CNR station here Saturday and permitted to resume their journeys or return to their Winnipeg homes.

**FRACTURED PELVIS**  
A. G. McKenzie, of Winnipeg, CNR express messenger, suffered a fractured pelvis and other injuries. He is in hospital at Fort St. James, where he was injured last Saturday in the tragic wreck at Dugloo, Man., which cost 29 lives, suffered two broken ribs, and is in hospital here.

**EDMONTONIAN HURT**  
Other passengers in hospital are Mrs. Kaichenka of Edmonton and Mrs. Fitzsimmons of Regina.

## 62 Deaths During Holiday Week-End

### Toll Heavy as Canadians In Four-Day Celebration

By The Canadian Press

On the highway, on the water and in the air, death rode with Canadians during the long Dominion day week-end. A Canadian Press compilation today showed that 62 persons lost their lives since the four-day celebration started last Thursday.

But during a comparable four day period last year, the Saturday-to-Tuesday Dominion Day observance, the total was far higher: 98. Drownings took 29 lives as hot weather over most of Canada lured holidaymakers to the beaches. Highway deaths numbered 31. Two plane crashes, one in northern British Columbia and another in the Ontario wilds, killed seven persons altogether. Two men were shot to death near Riviere du Loup, Que., and a train mishap and a fall each caused a death. Since Friday night 35 deaths have been reported.

#### QUEBEC DROWNING

Jean-Marc Labbe, 32-year-old son of a minister without portfolio in Quebec's Duplessis cabinet, was drowned last night in Oyster Lake, seven miles from the eastern townships town of Thetford, Que.

Don McClelland of Vancouver was drowned when swept under by the Fraser River and Emily Hild, 22, drowned in a remote Manitoba lake north of The Pas.

**CRASHED UNDER CAR**  
Mrs. Andrew Grayson of Edmonton was crushed under a car and Robert E. Cronin, 24, of Vancouver, and John Carpenter, 19, of Bellingham, Wash., were victims of separate auto crashes near Vancouver.

A light plane which crashed into a pond near Prince George, B.C., carried to death Mrs. Sam McLean of Prince George and her two sons. The pilot, Roy Archer, was pulled from the wreckage by an unidentified woman who ran from a nearby dance hall.

#### Helicopter Taxi

PARIS, July 5.—(Reuters)—A French aviator, Andre Labarthe, flew a helicopter from London to Paris yesterday and landed on the roof of a department store to prove there was a future for last helicopter.

**DETERRED CARS**  
Deterred cars of the freight train were cleared away today and traffic returned to normal.

The accident occurred about 2:40 a.m. The passenger train, No. 4 Transcontinental, was not seriously damaged. At the time of the collision it was running nine hours late after a delayed start from Vancouver. It had stopped to repair a coupling between two front-end cars when the freight, running behind, rammed into the rear of No. 4.

#### PILOT MAKES SLIGHT ERROR

NEW YORK, July 5.—(AP)—The 4300-acre airport below looked a little larger to Alfred Stranieri of Worcester, Mass., but he landed his light plane there anyway.

"Is this Columbia Field, Valley Stream?" he asked John Smith, operations supervisor. "What?" exclaimed Smith. "This is New York International Airport, the world's largest airport."

Stranieri, embarrassed, said he made a mistake. He was looking for Columbia Airport, a three-acre field on Long Island.

#### Two-Injured In Cycle-Car Crash

DRUMHELLER, Alta., July 5.—(CP)—Barry Rodette and Douglas Vickers, both of Drumheller, are in hospital following an accident here when their bicycle was in a collision with the truck. Both boys are about 10 years old.

Hospital authorities described Barry Rodette's condition as critical. The Vickers' boy is believed to have suffered a broken arm.

#### Blat Kills Four

MEXICO CITY, July 5.—(AP)—four persons were killed and 29 injured Saturday in an oil factory explosion and fire in downtown Mexico City. The explosion, believed to have resulted from an overloaded boiler, shook buildings and smashed windows for blocks around.

Snakes ordinarily use their venom apparatus as a defensive weapon only.

#### THE PUBLIC SERVICE OF CANADA

REQUIRES  
A CHIEF TRAFFIC OFFICER, \$1,500-\$5,400 and  
Two INSPECTORS OF EXPLOSIVES, \$1,300-\$3,800,  
all at Ottawa.

Poster announcements giving full details are on display—and application forms are obtainable—at Post Offices, National Employment Service Offices, and Offices of the Civil Service Commission throughout Canada.

## Tuesday is BABY DAY

### Cute and Cuddly, Smiling and Small EATON'S Is Happy About Them All!

We think babies are wonderful! . . . and we've thought so for two decades.

Skilled, trained attendants in our Infants' Wear Department on the Second Floor, South, make shopping for baby fun. YOU'LL discover interesting new ideas, out-of-the-ordinary merchandise that will help make baby's life a happy one. There's a wealth of information in "Your New Baby," a magazine that is yours without charge.
